

BENEFITING THE UNIVERSITY OF MARYLAND MARLENE AND STEWART GREENEBAUM COMPREHENSIVE CANCER CENTER
JUNE 15, 2024

At the University of Maryland Marlene and Stewart Greenebaum Comprehensive Cancer Center (UMGCCC), philanthropy helps to achieve vital growth by supporting advancements in cancer research, discovery and patient care. By making a tax deductible gift in support of UMGCCC, you become a partner in advancing and strengthening healthcare excellence. Funds raised from this year's regatta will support innovative cancer research. By investing in discovery-based medicine, you enable UMGCCC faculty and staff to provide the most advanced care and develop more cutting-edge treatment therapies to help patients live longer.

- First cancer center in Baltimore/Washington area to offer CAR-T cell therapy for aggressive B cell lymphomas; and now for several types of B cell lymphoma, leukemia and myeloma.
- Leader in addressing cancer disparities, with research focused on improving access to care and treatment outcomes for minorities.
- Galeterone, a drug invented at UMGCCC by Dr. Angela Brodie & Dr. Vincent Njar, has shown significant activity against advanced prostate cancer. More recent studies are promising in laboratory models of pancreatic cancer. A clinical trial is underway.
